Meet Ewocar

We believe that every vehicle deserves professional care!

We are committed to providing our customers with the highest-quality products and the best possible customer service. Whether you're a professional detailer or a weekend warrior, we have everything you need to keep your car looking and performing its best. Our goal is to create a team of professionals in sales to deliver top quality products to the end customer. If you are one of them and would like to join EWOCAR Family – contact us today! We will provide you with full technical and sales support throughout the process.

2017

The Beginning
Ewocar was founded with a clear mission: to create high-quality, professional-grade detailing products designed specifically for the needs of the industry. Starting from a simple idea, the focus was on solving the challenges professionals faced with inconsistent quality and overpriced products.

2018

First Product Launch
The first Ewocar product was introduced after extensive development and testing:
Ewocar Ultra Soft Microfiber cloths set engineered for exceptional performance and durability.
This initial launch set the foundation for Ewocar's reputation for precision, reliability, and professional results.

2019

Expansion into Polishing system
With strong industry feedback, Ewocar expanded its product line to include: • Polishing pads designed for professional paint correction; • Continued product testing with real-world detailing experts to ensure uncompromising quality. This year marked the beginning of Ewocar's international distribution network, allowing the brand to reach new markets.

2020

Innovation Behind Closed Doors
With global markets slowing down, Ewocar used 2020 as a year of innovation and quiet growth.
Countless hours were spent in the studio – perfecting formulas, upgrading packaging, and planning the next phase of expansion that would unfold in 2021.

2021

Building Trust and Recognition
Ewocar strengthened its position in the detailing industry by: • Introducing standardized testing processes for every product; • Partnering with authorized distributors to guarantee authenticity and local support; • Earning recognition among professionals for delivering consistent, high-performance solutions.

2022

Accelerating Global Expansion
With growing international demand, Ewocar expanded its distributor network across multiple markets, strengthening its global presence and improving product accessibility for professionals worldwide.

2023

Strengthening Global Distribution
The brand focused on its exclusive distributor model, ensuring that: • Products are available only through authorized partners; • Clients receive genuine products and expert support; • A strong network of industry professionals continues to grow globally.

2024

Continued Development
Ewocar invested heavily in research and development to refine its formulations and technologies, maintaining its reputation for high-quality, performance-driven products that deliver measurable results in professional detailing environments.

2025

The Future of Detailing
Ewocar is committed to: • Expanding its global distribution network; • Continuously developing innovative detailing products; • Supporting its partners with training, technical guidance, and sales expertise.
The goal remains unchanged: to deliver the best detailing solutions at the best value while supporting professionals worldwide.

2026

Paint Protection Film is here!
Ewocar enters a new era with the launch of its Paint Protection Film (PPF). This move redefines the brand's scope — from detailing products to full-spectrum vehicle protection, setting the foundation for the future of Ewocar.

The Ewocar Polishing System is designed to make paint correction simple, effective, and consistent. By clearly matching polishing compounds with the correct pads, the system helps achieve reliable results while reducing guesswork. Suitable for both professionals and enthusiasts, the Ewocar Polishing System allows you to correct, refine, and finish paintwork with confidence, whether performing light polishing or more intensive correction.

If you're looking to restore your car's paint to its former glory, our polishing compounds and pads are just what you need. They are safe to use on all types of paint and will remove scratches, swirl marks and other imperfections, leaving your car with a smooth, mirror-like finish.

Centre Your Pad
For the best performance, it is crucial that your pad is perfectly centered on your machine. An easy method to confirm this is to rotate it manually. If there is too much vibration, take off the pad and try again.

Keeping Your Pads Clean
Cleaning polishing pads is essential to maintain their performance and prevent them from becoming clogged or saturated with the spent product during use. To clean them, hold a pad cleaning brush against the pad and run the machine or use compressed air to remove any contaminants or compound residue.

Re-Using Your Pads
Ewocar pads are extremely durable and can be reused multiple times after cleaning off compound residue and other contaminants To clean them, spray used pads with Ewocar AllClean, let it sit for 3-5 minutes, then rinse with warm water. Repeat the process if necessary.
For multiple pads, soak them in a bucket of water or wash in the laundry machine, keeping water below 40 degrees Celsius and RPM below 1000 (if using laundry machine, make sure to separate foam pads from wool or microfiber pads).

Heavy Cut+

An advanced, high-performance **heavy-cut abrasive compound** engineered for rapid defect removal and professional-grade paint correction. Developed for use with both rotary and dual-action polishers, Heavy Cut+ delivers exceptional cutting power while maintaining a long working cycle—even at higher machine speeds.

EXTRA-STRONG ABRASIVE COMPOUND. Faster defect removal with minimal heat buildup and virtually zero dusting, making polishing cleaner, safer, and more efficient. **MAXIMUM CUTTING POWER.** Engineered to cut aggressively **without overheating the paint**, resulting in safer correction on sensitive or heat-prone surfaces. **CLEAN, DUST-FREE POLISHING EXPERIENCE.** Thanks to its advanced water-based formulation, Ewocar Heavy Cut+ produces **almost no dust**, keeping the work environment clean and reducing wipe-down effort.

FEATURES:

Extra-strong heavy cut compound

Increased cutting speed for faster correction

Water-based formula with **lower heat buildup**

Free of **silicones and fillers**

Designed for both rotary & dual action polishers

WoolWhite

Most aggressive and highest-cutting wool pad in the Ewocar polishing system. Engineered for heavy defect removal, this pad is designed to tackle severe paint imperfections such as deep scratches, heavy oxidation, sanding marks, and other major defects that require maximum correction power. **MAXIMUM CUTTING PERFORMANCE.** The most aggressive pad in our range ideal for removing deep defects, P800–P1500 sanding marks, and heavy oxidation with speed and precision. **DURABLE CONSTRUCTION.** High-quality wool fibers and strong backing allow the pad to handle extended correction cycles while maintaining consistent cutting ability. **COMPATIBLE WITH DA & ROTARY.** Optimized for Dual Action polishers but fully compatible with rotary machines.

SIZES: 45x35 mm, 75 mm, 130 mm, 150mm.

FEATURES:

Ewocar's **most aggressive cutting pad**

Extremely high durability

Perfect for severe paint correction and heavy defect removal

Recommended use with Ewocar Heavy Cut & Heavy Cut+ compounds

Durable, high-quality wool fibers

PremiumWool

The most aggressive and efficient wool cutting pad in the Ewocar polishing range, engineered specifically for **rotary polishers**. Designed to deliver maximum cutting power, it offers the fastest and most controlled solution for eliminating severe paint defects such as sanding marks, deep scratches, oxidation, and water spots. **MAXIMUM CUTTING EFFICIENCY.** High-quality wool fibers that provide powerful mechanical cut while maintaining controlled heat and smooth operation. **DURABLE CONSTRUCTION.** The pad is built to withstand **intensive use**, maintaining its structure and cutting ability over extended polishing sessions. **CUTTING PERFORMANCE.** Makes it the go-to choice for heavy-duty correction work.

SIZES: 80 mm, 125 mm, 150 mm, 180 mm.

FEATURES:

Professional **wool cutting pad** for heavy defect removal

Extra-strong cutting capabilities for fast correction

Ideal for removing deep scratches, sanding marks, oxidation, and water spots

Recommended use with Ewocar Heavy Cut & Heavy Cut+ compounds

Durable, high-quality wool fibers

HeavyCut

High-performance, water-dilutable **heavy-cut compound** developed for professional detailers and enthusiasts who demand fast, clean, and consistent paint correction results.

HIGH CUTTING POWER WITH EXCELLENT GLOSS. Despite its aggressive cutting ability, the compound maintains **impressive gloss**, making it suitable as the first step in a two-step correction. **PROFESSIONAL HEAVY DEFECT REMOVAL.** Compound delivers longer working cycles without premature drying-allowing smoother polishing, extended control. **CLEAN, DUST-FREE POLISHING EXPERIENCE.** Thanks to its advanced water-based formulation, Ewocar Heavy Cut produces **almost no dust**, keeping the work environment clean and reducing wipe-down effort.

FEATURES:

Professional **heavy-cut polishing compound**

Removes sanding marks down to **P1000 grit**

Low-dust formula for cleaner work

Free of **silicones and fillers**

Designed for both rotary & dual action polishers

FlexiWool

High-performance, aggressive cutting pad engineered for maximum versatility on both flat and curved automotive surfaces. Combining a short-wool surface with a flexible **burgundy foam interface**, FlexiWool delivers exceptional cutting power while maintaining adaptability and control, especially on rounded panels, contours, and tight body lines. **HIGH CUTTING POWER.** Cuts through heavy defects, scratches, oxidation, and sanding marks quickly and efficiently. **MAXIMUM FLEXIBILITY ON CURVES.** The foam-backed wool design allows the pad to adapt to rounded panels, edges, and tight contours, providing better contact and safer correction. **PRECISION + CONTROL.** Elastic yet stable construction ensures smooth machine operation, improved handling, and consistent results, even at higher speeds.

SIZES: 45x35 mm, 75 mm, 130 mm, 150mm.

FEATURES:

Wool + Our BurgundySpecial foam hybrid interface

Extra-strong cutting performance

Perfect for curved, contoured, and rounded vehicle sections

Recommended use with Ewocar Heavy Cut & Heavy Cut+ compounds

Durable, high-quality wool fibers

HardBlue

Highly abrasive, heavy-cut foam pad engineered to remove deep scratches, severe defects, and heavy paint imperfections with confidence and efficiency. Ideal choice for intensive correction work where strong mechanical cut is required to restore the original appearance of painted surfaces. **EASY TO USE.** Provides stable handling and predictable behavior, making it suitable for beginners while delivering the performance professionals demand. **ROBUST, LONG-LIFE CONSTRUCTION.** Dense foam and strong structural integrity ensure a long service life, even under heavy workloads and repeated polishing cycles. **STRONG ABRASIVE POWER.** Designed for deep scratch removal and heavy correction-ideal for the first step in multi-stage paint restoration.

SIZES: 45x35 mm, 75 mm, 130 mm, 150mm.

FEATURES:

Hard, heavy-cut **foam polishing pad**

Removes deep scratches and major defects

Aggressive foam design provides the required cutting power to restore clarity

Ideal with Ewocar **Heavy Cut** & **Heavy Cut+** compounds

Works with **DA** and **rotary** polishers

OneCut

High-performance one-step polishing compound designed for detailers who demand both speed and precision. In a single polishing step, One Cut restores clarity, removes defects, and delivers an exceptionally glossy, hologram-free finish on a wide range of painted surfaces. **The residue wipes off cleanly, leaving a coating-ready surface with no additional degreasing required, ensuring full compatibility with our complete coatings lineup**.
TRUE ONE-STEP CORRECTION. One Cut is engineered to deliver **correction and finishing in a single stage**. **REMOVES DEFECTS WITH EASE.** Effectively tackles: Sanding marks up to **P2000 grit**, light–medium scratches, dull or oxidized paint. **CONTROLLED POLISHING. Water-based, low-dust formula** allows for extended working cycles, giving detailers more control and reducing messy cleanup.
COATING-READY FINISH. Leaves the surface fully coating-ready after wipe-off – **no degreasing needed**, compatible with **our full coatings range**.
FEATURES:

- Professional **one-step** polishing compound
- Leaves an **extremely glossy**, **hologram-free** finish
- Works exceptionally well with **MediumRed** & **FiberCu**t pads
- Free of **silicones and fillers**
- Designed for both rotary & dual action polishers

MediumRed

Highly versatile, medium-firm foam pad engineered for removing light to medium scratches, wash-induced marring, and common holograms. Offering an ideal balance between cutting power and finishing ability, this pad is perfectly suited for **one-step polishing**-delivering excellent defect removal while leaving a glossy, refined finish in a single process. **ONE PAD, MULTIPLE POLISHING SCENARIOS.** Its medium density gives it the strength to correct while maintaining the finesse to finish cleanly. **OPTIMIZED FOR EWOCAR ONE CUT.** This combination is perfect for daily detailing jobs or fast enhancement services where results and time both matter.
DURABLE, LONG LIFE. High-quality foam construction offers excellent resistance to wear, making the pad suitable for repeated use and professional workloads.
SIZES: 45x35 mm, 75 mm, 130 mm, 150mm.
FEATURES:

- Medium-firm foam polishing pad
- Excellent for one-step polishing compounds
- Works with One Cut, Heavy Cut, and Fine Cut
- Removes light to medium scratches and holograms
- Works with **DA** and **rotary** polishers

FiberCut

High-performance cutting and polishing pad designed for detailers who need both strong correction capability and exceptional finishing quality. Engineered with dense, high-quality microfiber fibers, FiberCut offers **remarkable cutting power** while still being suitable for **one-step polishing**. **HIGH CUTTING PERFORMANCE + ONE-STEP RESULTS.** Cuts quickly like a true heavy-correction pad but finishes clean enough for single-step polishing on many paint types. **SAFE FOR EDGES & CONTOURS.** Medium-soft pad edges reduce the risk of burning paint or damaging trims, making it perfect for precision work on curves and tight areas. **LONG-LASTING DURABILITY.** High-quality microfiber and tough construction ensure multiple polishing cycles with consistent cutting and finishing quality.
SIZES: 45x35 mm, 75 mm, 130 mm, 150mm.
FEATURES:

- Microfiber polishing pad with strong cutting capabilities
- Suitable for heavy cut, one-step, and finishing applications
- High durability and long service life
- Works with Heavy Cut, Heavy Cut+, One Cut & Fine Cut compounds
- Delivers an ultra-glossy surface in a single process

FineCut

Designed for professional detailers and perfection-driven enthusiasts, Fine Cut removes holograms, micro-marring, and light paint defects to create a flawless, deep, mirror-like finish-especially after heavy cutting stages.

PERFECT FINISHING. Specifically formulated to refine the paint surface after aggressive correction. **EXCEPTIONAL GLOSS & CLARITY.** Designed to deliver a **10/10 gloss rating**. **FOR MAXIMUM GLOSS AND PROFESSIONAL-LEVEL FINISHING.** It is best paired with the Ewocar **Burgundy Special Finishing Pad**.

FEATURES:

Fine **finishing polishing compound**

Removes light scratches, haze, and holograms

Delivers an **extremely clear**, **deep gloss**

Free of **silicones and fillers**

Designed for both rotary & dual action polishers

BurgundySpecial

Premium ultra-soft foam pad designed specifically for the final refinement stage of paint correction. Made from high-quality, durable burgundy foam, this pad offers an exceptionally soft working surface supported by a stable, well-structured foam body-providing both precision and outstanding longevity.

MAXIMUM SOFTNESS. Unique cellular foam structure provides a silky-smooth polishing experience while maintaining excellent pad stability. **IDEAL FOR FINAL-STAGE.** High-quality burgundy foam provides incredible resilience and longevity, outperforming typical soft finishing pads. **DESIGNED FOR HIGH-GLOSS.** Designed for ultimate clarity and shine, especially when paired with Ewocar Fine Cut or used for wax/glaze application.
SIZES: 45x35 mm, 75 mm, 130 mm, 150mm.
FEATURES:

Ultra-soft **finishing pad** made from premium burgundy foam

Designed for **final polishing stage to achieve high gloss**

Perfect for removing haze, micro-marring, and minor holograms

Works exceptionally well with **Ewocar Fine Cut**

Works with **DA** and **rotary** polishers

Protective Coatings

Experience long-lasting protection for your vehicle with Ewocar ceramic coatings. Our high-quality ceramic coatings are designed to shield your car's paint from harsh weather conditions and environmental contaminants. Our ceramic coatings provide a durable and long-lasting protective layer that can withstand the test of time. With proper care, Ewocar ceramic coatings can protect your car's paint for up to five years.

Ewocar ceramic coatings are designed to protect vehicle surfaces while enhancing gloss and ease of maintenance. From professional-only solutions to user-friendly coatings, the range offers options for different needs and experience levels. Ewocar ceramic coatings provide long-lasting protection against environmental factors, helping keep vehicles looking cleaner for longer.

Ewocar application kits are designed to make coating application simple and accessible. Each kit includes a 30 ml bottle of one of Ewocar's most popular ceramic coatings, providing the ideal amount for a single vehicle application. These kits are perfect for first-time users, testing purposes, training, or applying ceramic protection without committing to larger volumes.

PRO60

Pro60 is a next-generation ceramic coating available exclusively to certified and authorized detailers, engineered to deliver elite-level protection, workability, and performance. With its unmatched balance of workability, protection, and user experience, Pro60 gives certified detailers a competitive edge — delivering showroom gloss, lasting durability, and true installation flexibility, all in record time.

STRESS-FREE WORKING TIME. Unlike most coatings, it allows 10–15 minutes of open time, giving detailers the freedom to coat panel-by-panel without pressure or rushed wipe-downs.
UP TO 60 MONTHS DURABILITY. Long-lasting protection against UV, dirt, water, chemicals, and environmental fallout.
BOOST+ COMPATIBLE. For ultimate slickness and extreme hydrophobics, Boost+ can be applied 1–3 hours after Pro60 as a topper.
FAST CURING, FAST DELIVERY. Begins curing within 1–4 hours, allowing vehicles to be delivered within 3–4 hours post-application — ideal for highefficiency detailing studios.

APPLICATION INSTRUCTIONS:
Eligibility: For certified professionals only!

Surface Prep: Wash, decontaminate, and degrease thoroughly.

Application: Apply in linear motion; allow 10–15 minutes before wipe-off.

Layering: Apply second layer immediately after first if desired.

Topper: Apply Boost+ within 1–3 hours for added gloss & hydrophobics.

Cure Time: Initial cure within 1–4 hours (temp & humidity dependent).

Delivery: Safe to return to customer in 3–4 hours.

Graphene60

Graphene Coating is a next-generation ceramic coating infused with graphene, designed to deliver maximum durability, enhanced thermal resistance, and an incredibly smooth, deep, wet-look finish. Recommended strictly for professional use, it combines the benefits of SiO_2 with the innovative strength of graphene, resulting in a protective layer that is harder, glossier, and more resilient than ever before.

ULTIMATE DURABILITY & SCRATCH RESISTANCE. Forms an ultra-dense, highly scratch-resistant barrier against micro-marring, oxidation, road salt, and insect acids.
LASTING HYDROPHOBICITY & SELF-CLEANING. Creates an ultra-slick, active surface that repels water and dirt, maintaining a strong hydrophobic effect for years.
DEEP, WET GLOSS. Significantly enhances the vehicle's appearance with a rich, glossy, wet-look finish.
ENHANCED THERMAL RESISTANCE. Graphene infusion provides superior heat management and protection.

APPLICATION INSTRUCTIONS:
Preparation: Polish the paint to remove imperfections, then degrease the surface using Ewocar Degreaser and a microfiber towel.

Application: Evenly prime the applicator pad, then apply the coating to a small area (max half the hood) using the finger applicator.

Flash Time: Allow the coating to cure (flash) for 1 to 3 minutes. Time depends on temperature and humidity.

Wipe Off: Use an Orange Ultrasoft Microfiber set to wipe off excess coating, then use a blue Ewocar cloth to gently buff the surface to a final gloss.

Correction: Use Degreaser or repolish to correct any high spots visible after 30–60 minutes.

Hydro36

Hydro36 is a high-performance professional ceramic coating developed to provide an ultra-hard, ultra-hydrophobic shield overpaint surfaces.
Hydro36 is made for those who demand high-performance ceramic technology. It's not just about shine – it's about protection you can count on.

9H SURFACE HARDNESS. Creates a resilient, scratch-resistant surface that significantly reduces swirl marks and hazing.
LONG-TERM PROTECTION. Delivers up to 36 months of protection with proper maintenance.
STRONG CHEMICAL RESISTANCE. Withstands pH levels from 2 to 12, offering protection from acidic contaminants and alkaline cleaners.
FAST-CURING FORMULA. Bonds to the surface quickly for efficient installation — strictly recommended for professional use.

APPLICATION INSTRUCTIONS:
Preparation: Ensure surface is perfectly clean, decontaminated, and degreased using Degreaser.

Application Method: Apply Hydro36 in straight-line, linear motions only (no criss-cross pattern) for even coverage.

Panel Management: For large panels (e.g. the bonnet), divide into 4–5 sections for better control and leveling.

Buffing: Allow brief flashing (dependent on ambient temperature), then level using a soft microfiber towel.

Curing: Avoid exposure to water for 12 hours post-application. Full curing occurs over several days.

Boost+

Boost+ is a user-friendly, entry-level ceramic coating designed to enhance the performance of already existing coatings or serve as a standalone ceramic protection layer. Boost+ offers a smart solution for both enthusiasts and pros – whether you're extending protection or creating a new one. Simple, slick, and seriously satisfying.

EASY APPLICATION. Designed for all skill levels, Boost+ spreads easily and wipes off cleanly – no hazing or struggling.
INSANE HYDROPHOBICS. Creates an extremely hydrophobic and slick finish that repels dirt, water, and othercontaminants — with "dripping wet" gloss-look that detailers love.
MULTI-SURFACE COMPATIBILITY. Safe to use on paint, chrome, plastic trim, and wheels. Bonds instantly and beads like crazy within minutes of application.

APPLICATION INSTRUCTIONS:
Preparation: Ensure the surface is clean, dry, and free of oils or residue. Use Degreaser for optimal bonding.

Application: Apply a few drops of Boost+ onto a Microfiber Coating applicator. We highly recommend to work in small sections (e.g. 50x50cm).

Flash Time: Allow the coating to cure (flash) for 1 to 3 minutes. Time depends on temperature and humidity.

Wipe Off: Wait 30–60 seconds (depending on temperature/humidity), then wipe off with one of Cloth Set towels.

Cure Time: Avoid contact with water for at least 12 hours after application.

FlexiCoat

Ewocar FlexiCoat is a professional-grade ceramic coating for exterior/interior plastics, trim, bumpers, rubber seals, and textured surfaces. It revives original color depth, creates a slick hydrophobic barrier that repels dirt/grime, and shields against fading, oxidation, cracking, and harsh chemicals (**pH 2–13**) — keeping surfaces looking new longer with easy maintenance.
DEEP RESTORATION & LONG-TERM PROTECTION. FlexiCoat penetrates and forms a dense, highly flexible membrane that revives original depth and color intensity without an artificial greasy shine.
HYDROPHOBIC BEHAVIOR & EASY MAINTENANCE. Creates a slick, super-repellent surface that actively prevents dirt, grime, water spots, and road contaminants from adhering to treated plastics and rubber.
UV & OXIDATION BLOCK. Prevents fading, chalking, and cracking from sun exposure.
MULTI-LAYER COMPATIBLE. Stack layers for enhanced durability in demanding environments.
APPLICATION INSTRUCTIONS:
Thoroughly prepare the surface: Clean and degrease using Ewocar Degreaser. Ensure the plastic/rubber is completely clean, dry, and free of any previous dressings, silicones, or protectants.

Clean and degrease: Using Ewocar Degreaser. Ensure the plastic/rubber is completely clean, dry, and free of any previous dressings, silicones, or protectants.

Apply Ewocar FlexiCoat: Apply in linear motion; allow 10–15 minutes before wipe-offUsing the Ewocar Finger Applicator (or a Ewocar Application Sponge). Work in small, controlled sections to achieve uniform coverage.

Allow the coating to bond for 1–2 minutes: Then remove excess and level with an Ewocar Cloth Set Towel until the surface is even and streak-free.

If applying a second layer: wait **1-2 hours** before repeating steps 3–4.

Protect from water exposure: For at least 18–24 hours. Full curing and maximum performance develop over 9–10 days.

For maximum thickness and longevity: (approx. 3–5 µm dry film), the coating can also be applied as a fine mist spray and left to dry naturally without wiping.

WheelPro

Ewocar WheelPro is a high-strength ceramic coating engineered specifically for the harshest and most demanding area of any vehicle: **the wheels**. Designed to withstand extreme temperatures, brake dust, road salt, aggressive chemicals, and heavy road grime, this coating creates a transparent, ultra-durable protective layer on painted, powder-coated, matte, chrome, and polished rims. Formulated with advanced SiO_2 technology and premium components, Ewocar WheelPro not only boosts gloss but also provides powerful defense against chemical etching and dramatically reduces contamination adhesion.
HIGH-TEMPERATURE STABILITY & LONG-TERM PROTECTION. Wheels endure some of the most aggressive environments on any vehicle. Ewocar WheelPro delivers exceptional thermal resistance **up to +1,000 °C**.
HYDROPHOBIC PERFORMANCE & EASY MAINTENANCE. Creates an extremely slick, super-hydrophobic surface that actively repels brake dust, dirt, water, and iron particles — keeping wheels noticeably cleaner for longer and significantly reducing the need for frequent washing.
MULTI-LAYER COMPATIBLE. Built for layering — stack 2–3 coats for extreme durability in high-mileage or severe conditions.
USER-FRIENDLY APPLICATION. Forgiving application window with excellent leveling – ideal for both pros and experienced enthusiasts.
APPLICATION INSTRUCTIONS:
Thoroughly prepare the surface: pre-wash with Ewocar ALK PreWash, followed by Ewocar Bleed Iron Remover. Ensure the wheel is completely clean, dry, and cool to the touch.

Final preparation: degrease the wheels using our Ewocar Degreaser.

Apply Ewocar WheelPro: using the Ewocar Finger Coating applicator or Ewocar Application Sponge. Work in small sections to achieve even coverage and a visible wet film.

Allow the coating to dwell for 1–3 minutes: then remove excess product with an Ewocar Cloth Set Towel. Lightly buff the area until the surface is clear and streak-free.

If applying a second layer: wait 20 minutes before repeating steps 3–4.

Curing: best is to leave it at least for 18 hours without any water contact. Full curing and maximum performance are reached after 9–10 days.

GlassPro

GlassPro is an advanced nano-ceramic coating designed specifically for glass surfaces, providing up to 24 months of durable protection against environmental elements. Whether you're driving through storms, snow, or bugs at high speed, GlassPro ensures clear, low-maintenance glass with a long-lasting nano shield that's invisible to the eye, but powerful in performance.

EXCEPTIONAL HYDROPHOBICITY & SELF-CLEANING. Rain, mud, snow, and even insects bead off effortlessly, keeping your glass cleaner for longerand enhancing driver visibility.
INVISIBLE, LONG-TERM PROTECTION. Creates a crystal-clear, hydrophobic barrier on windshields and glass surfaces that lasts up to 24 months.
ANTI-ICE & EASY-BUG REMOVAL. Reduces ice buildup and makes bug splatter removal dramatically easier — a major benefits for winter and summer.
FAST CURING, EASY APPLICATION. Cures within 4 hours and features a user-friendly process that's straight forward for both professionals and experienced enthusiasts.

APPLICATION INSTRUCTIONS:
Polish the glass: To remove any light defects and ensure a smooth surface.

Clean thoroughly: Using Degreaser to remove all residues and oils.

Apply the first layer: Using a microfiber or finger applicator in straight vertical lines.

Apply a second layer: In horizontal lines within 5 minutes for complete coverage.

Let it sit: For 10–15 minutes, then wipe off using a microfiber towel lightly misted with glass cleaner.

Allow to cure: For 4 hours without contact with water or moisture.

Cabrio

Ewocar Cabrio is a highly effective, fully breathable **ceramic textile impregnation** designed specifically for convertible soft tops, yet versatile enough for all automotive and household textiles. Whether it's a fabric roof, textile seats, floor mats, or even your favorite canvas sneakers — Ewocar Cabrio creates a durable, invisible barrier that repels water, oils, and dirt without changing the material's appearance or texture.

CERAMIC HYDROPHOBIC PROTECTION. Creates a super-hydrophobic nano-layer that repels water, oils, and stains while preserving full breathability.
SILICONE-FREE, WATER-BASED & VOC-FREE. Eco-friendly formulation leaves no greasy film, no odor, and no visual darkening — safe for users and textiles.
LONG-LASTING DURABILITY (UP TO 12 MONTHS). One treatment lasts through all seasons, minimizing maintenance and protecting your roof or textiles year-round.

FEATURES:
Ceramic impregnation designed for **convertible fabric roofs**.

Super-hydrophobic nanotechnology resists liquids & oils.

Protects against stains, mold, moss, cracking, and moisture retention.

Breathable and silicone-free — maintains the fabric's natural look.

Versatile use on car textiles, upholstery, mats, shoes, etc.

Application kits

Boost+

The Ewocar Boost+ Application Kit delivers an upgraded, user-friendly ceramic-based protection experience in a compact **30 ml format**, perfectly measured to coat **one full vehicle** without waste. Designed for both professionals and enthusiasts, this kit provides everything needed for a clean, controlled, and professional-quality application: Boost+ coating, a premium microfiber applicator, and a soft short-pile microfiber cloth. **COMPLETE, READY-TO-USE APPLICATION KIT.** Includes Boost+ coating, microfiber applicator, and short-pile cloth — no extra tools needed. **GLOSS & HYDROPHOBIC REFRESH.** Revives water beading, slickness, and gloss on coated or uncoated surfaces, keeping the car cleaner for longer. **ONE BOTTLE = ONE CAR.** The 30 ml volume is perfectly calculated for full vehicle coverage — no waste, no guesswork.

FEATURES:

Complete Boost+ 30 ml kit: coating, applicator, short-pile microfiber cloth

Very easy application: apply → spread → wipe → buff

Works on **paint**, **plastic trims**, **wheels**

Ideal as a **refresh layer** for ceramic coatings

Can also function as standalone paint protection

Hydro36

Ewocar Hydro36 is a premium ceramic paint protection coating engineered for exceptional durability, outstanding gloss, and extreme hydrophobic performance. Designed for both **professional detailers** and **passionate enthusiasts**, Hydro36 delivers top-tier results in a **single**, **easy-to-apply layer,** setting a new standard for user-friendly ceramic protection. **LONG-LASTING 9H CERAMIC PROTECTION (UP TO 3 YEARS).** Delivers professional-grade resistance against UV, chemicals, bird droppings, acid rain, and scratches with a single, durable nano-ceramic layer. **EXTREME HYDROPHOBICITY & GLOSS.** Creates a slick, water-repellent surface that stays cleaner longer, beads water instantly, and maintains deep gloss over time. **EASY SINGLE-LAYER APPLICATION.** Smoother than PRO60 with no second layer needed — ideal for professionals and enthusiasts who want high performance without complexity.

FEATURES:

High-durability **ceramic paint protection**

Chemical resistance from **pH 2 to 12**

Hydrophobic, glossy, easy-to-clean finish

Consumption: **~30 ml per car**

Includes **applicator + microfiber cloth**

Graphene60

Ewocar Graphene60 represents the absolute peak of Ewocar's paint protection technology. Powered by an advanced **graphene-reinforced ceramic formula**, it creates an ultra-dense, chemically bonded protective layer with unmatched hardness, gloss, and longevity. Once cured, Graphene60 delivers the **highest scratch resistance** in the Ewocar range, making it the ultimate choice for modern vehicles with softer clear coats that are prone to micro-marring, even with careful washing. **MAXIMUM SCRATCH RESISTANCE & HARDNESS.** Graphene-reinforced ceramic layer offers Ewocar's strongest protection — ideal for soft, scratch-prone modern clear coats. **LONG-LASTING HYDROPHOBICITY.** Self-cleaning water-repellent performance that stays strong for years, resisting UV breakdown and environmental wear. **ULTRA-SMOOTH, EASY-TO-CLEAN FINISH.** Creates a slick, contamination-repelling surface that keeps the vehicle cleaner longer and reduces washing frequency.

FEATURES:

Ewocar's **most durable** protection with graphene

Extreme surface hardness and scratch resistance

Ultra-smooth, self-cleaning hydrophobic surface

Keeps paint cleaner and glossier with minimal maintenance

Protection lifespan: **up to 5 years**

Maintenance

Ewocar Maintenance products are designed to keep your vehicle clean, fresh and protected between washes and detailing sessions. Easy to use and effective, these products help maintain your car's appearance inside and out while supporting long-lasting results. Whether for quick touch-ups or regular care, Ewocar Maintenance solutions make everyday car care simple and reliable.

Exterior cleaners

ALK PreWash

Powerful alkaline-based **traffic film remover (TFR)** designed to deliver maximum cleaning performance with minimal effort. Engineered for professional detailers and demanding enthusiasts, ALK breaks down heavy contamination such as mud, road film, insects, grease and even brake dust long before you ever touch the paint. **HIGH-FOAM ALKALINE TRAFFIC FILM REMOVER.** Its **high-foam formula** clings to the vehicle's surface, extending dwell time and ensuring efficient, uniform cleaning across every panel. **ALK PREWASH HELPS.** To reduce swirl marks by safely removing the majority of dirt during the pre-wash stage. **VERSATILE ALKALINE PRE-WASH.** On the market, effective on daily drivers, commercial vehicles, off-road cars, and heavily soiled surfaces.

DILUTION RECOMMENDATIONS:

For optimal performance in a **snow foam lance**, mix: **10–50 ml of ALK PreWash per 1 L of water**, depending on contamination level

10–20 ml → light dirt / maintenance washes

30–40 ml → moderate contamination

50 ml → heavy grime, winter road film, bugs, off-road mud

Safe on paint, chrome, rubber, and plastics

CleanGlass

Ewocar CleanGlass is a premium glass cleaner engineered to deliver a **crystal-clear**, **streak-free finish** every time. Say goodbye to foggy windshields, smeary side windows, and stubborn fingerprints — CleanGlass cuts through everyday contamination effortlessly, leaving glass surfaces bright, clear, and safe for driving. **CRYSTAL-CLEAR, STREAK-FREE FINISH.** Cleans glass, mirrors, and screens without smearing — leaving a perfectly bright, transparent result. **SAFE ON DELICATE SURFACES.** Formulated for glass, vinyl, plastics, leather, Alcantara, touchscreens, and sunroofs without risk of damage. **FAST, SIMPLE SPRAY-AND-WIPE APPLICATION.** Quick-drying formula that works instantly, with no residue and no need for repeated passes.

FEATURES:

Glass cleaner for a **streak-free**, **crystal-clear finish**

Removes dirt, fingerprints, haze, and greasy films

Safe on **glass, mirrors, displays, sunroofs, plastics, vinyl, leather, Alcantara**

Easy **spray-on**, **wipe-off** application

Works safely on vehicles with **liquid wiper** hydrophobic treatments

Neutral Foam Shampoo

pH neutral car shampoo formulated to deliver rich, thick, and long-lasting foam that makes every hand wash safer and more enjoyable. Designed for both professionals and enthusiasts, it produces a dense foam blanket that lifts dirt and grime away from the paint while providing exceptional lubrication minimizing the risk of swirls, marring, and wash-induced scratches. **pH BALANCED.** Neutral Foam Shampoo is safe for all surfaces and won't degrade waxes, sealants or ceramic coatings. **IDEAL CHOICE.** For **regular maintenance washes**, coated vehicles and various detailing routines where safety and surface protection are essential. **SAFE HAND WASHING.** The formula is engineered to offer **outstanding slickness**, allowing your wash mitt or sponge to glide effortlessly across panels.

DILUTION RECOMMENDATIONS:

1–5% solution in a **1 L foam bottle**

1–2% → Maintenance washes / light dirt

3–4% → Moderate contamination

5% → Maximum foam & cleaning for heavily soiled vehicles

Bucket Wash: 50 ml per 5 L of water

Tar Remover

Powerful, fast-acting solution designed to dissolve stubborn tar, glue, asphalt, adhesive residue, grease, and even built-up traffic film. Formulated for both professional detailers and passionate enthusiasts, it makes the decontamination process safe, efficient, and effortless—keeping your vehicle's finish clean and maintaining the performance of ceramic coatings, sealants, and waxes. **PROFESSIONAL STRENGTH.** Despite its strong cleaning power, Ewocar Tar Remover is safe for **paint, plastics, chrome, wheels** and **coated surfaces**. **USER-FRIENDLY.** It can be applied directly without dilution, making it extremely user-friendly and effective even on the toughest contamination. **REGULAR MAINTENANCE.** Tar Remover helps restore that "freshly coated" feel by clearing contaminants and exposing a clean surface.

FEATURES:

Dissolve tar, asphalt, glue, and stubborn adhesive residue

Works on **wet or dry** surfaces

Fast action formula

Perfect for detailers and enthusiasts

Bug Remover

Highly effective, fast-acting Bug Remover designed to break down and dissolve stubborn insect remains, protein stains, and organic contaminants before washing your vehicle. Engineered for both professional detailers and everyday drivers. **FAST-ACTING.** Formulated to work safely on all exterior surfaces, Bug Remover softens residue within seconds, making it easy to wipe or rinse away. **SAFE PRE-WASH.** Essential **pre-wash step** that reduces the risk of scratching while preparing the vehicle for a safe contact wash. **BALANCED FORMULA.** Delivers strong cleaning performance while remaining safe for **paint, chrome, plastic trims, glass, headlights, PPF,** and **ceramic coatings**.

FEATURES:

Dissolves insect remains and organic contaminants quickly

Ideal for regular maintenance washes and pre-wash routines

Professional strength yet user-friendly formula

Easy spray-on, rinse-off application

> 5000 ml version can be diluted **1:15**!

Bleed

Ewocar Bleed – Iron Remover is a highly effective, fast-acting iron fallout remover designed to dissolve stubborn brake dust, industrial fallout, rail dust, and other bonded iron contaminants. Safe for use on **paint, plastics, chrome, glass,** and **alloy wheels,** Bleed is an essential product for both full decontamination and regular maintenance of ceramic-coated vehicles. **POWERFUL IRON DISSOLVING FORMULA.** Quickly breaks down embedded iron particles, removing brake dust, fallout, and stubborn deposits with visible "bleeding" reaction. **SAFE FOR ALL EXTERIOR SURFACES.** Gentle enough for paint, glass, plastics, chrome, and alloy wheels — and can even be used as lubricant for clay towels and clay gloves. **ESSENTIAL FOR CERAMIC COATING MAINTENANCE.** Restores gloss and hydrophobic performance by eliminating contaminants that block a coating's self-cleaning ability.

FEATURES:

High-performance **iron fallout remover**

Dissolves brake dust and industrial fallout quickly and safely

Safe for paint, plastics, chrome, glass and wheels

Can be used with synthetic clay towels or gloves

Perfect even for maintaining **ceramic-coated** surfaces

Degreaser

Ewocar Degreaser is a powerful, no-nonsense surface cleaner designed to prepare your vehicle for the application of ceramic coatings, sealants, and other protective layers. It removes **oils, polishing residues, fillers, fingerprints,** and **hidden contaminants** that would otherwise prevent a coating from bonding properly. This final step in the prep process is fast, essential, and critical if you want long-lasting, professional results. **REMOVES OILS, FILLERS & RESIDUES.** Cuts through polishing oils and hidden contaminants that interfere with coating adhesion — essential for long-lasting results. **STREAK-FREE, COATING-READY FINISH.** Leaves surfaces perfectly clean and clear, ensuring a flawless base for ceramic coatings, sealants, or waxes. **BOOSTS BONDING & COATING DURABILITY.** Improves adhesion, helping your protective coating last longer and perform better over time.

FEATURES:

Strong **surface cleaner** and **degreaser** for coating prep

Removes oils, polishing residues, and contaminants

Ensures a **clean, streak-free** finish

Safe on **paint, plastics, glass,** and **metal**

Quick, essential step for a professional-quality result

WheelAcid

Professional-grade, acid-based wheel cleaner engineered for fast, effective removal of heavy brake dust, disc residue, mineral deposits, and stubborn road grime. Designed for detailers and valeters who need rapid, reliable cleaning performance, this advanced formula restores the bright metallic finish of alloy wheels with minimal effort. **HIGHLY EFFECTIVE DEEP CLEANER.** Dissolves even the toughest brake dust and contamination rapidly, restoring the original metallic appearance of alloy wheels. **FRESH CHERRY SCENT.** Powerful cleaning without the harsh chemical smell—making heavy-duty wheel cleaning noticeably more pleasant. **PROFESSIONAL PERFORMANCE.** Ideal for detailers and valeters who need consistent, fast, reliable results on heavily contaminated wheels.

FEATURES:

Strong **acid-based** wheel cleaner for deep decontamination

Easily removes brake dust, disc residue and road grime

Restores wheels to a clean, smooth finish

Ideal for professional detailing and valeting

Dilution: **10–15%**

Quick Detailers

W-Coat

Ewocar W-Coat is a premium, next-generation **ceramic spray sealant** designed to dramatically simplify your vehicle maintenance routine. With its effortless, instantly effective formula, achieving exceptional gloss, smoothness, and strong hydrophobic performance takes only seconds — making W-Coat one of the easiest high-performance protections you can apply. **ULTRA-FAST CERAMIC PROTECTION.** Spray on the wet vehicle, rinse, and you're done — ceramic gloss and hydrophobicity in under a minute. **HIGH GLOSS, STRONG BEADING & SLICK FINISH.** Immediately enhances gloss and creates a smooth, water-repellent surface that stays cleaner for longer. **DURABLE & CHEMICALLY RESISTANT.** Despite effortless application, W-Coat offers long-lasting protection against chemicals, contaminants, and weather.

FEATURES:

Delivers instant gloss, smoothness, and hydrophobic behaviour

Works as a standalone protection or as a topper for coatings

Long-lasting durability & chemical resistance

Effortless application: **spray on wet surface → rinse → dry**

Suitable for all exterior surfaces (paint, trim, coatings)

Q-Seal

Ewocar Q-SEAL is an innovative ceramic quick detailer designed for those who want fast, effortless gloss enhancement combined with real protective performance. Unlike standard detail sprays that provide only temporary shine, Q-SEAL delivers **ceramic-level slickness**, long-lasting hydrophobicity, and several months of durable protection — all in seconds. **CERAMIC GLOSS IN SECONDS.** Spray, spread, buff — Q-SEAL delivers instant deep gloss, slickness, and paint brightness with zero effort. **STRONG HYDROPHOBIC PROTECTION.** Repels water and contamination, helping the car stay cleaner between washes and improving long-term maintenance. **SAFE ON ALL EXTERIOR SURFACES.** Paint, glass, wheels, chrome, interior gloss plastics — Q-SEAL enhances and protects without leaving streaks or residue.

FEATURES:

Innovative **ceramic quick detailer**

Safe for **paint, wheels, glass, chrome, glossy interior trim**

Strong hydrophobic effect for cleaner surfaces

Leaves a silky-smooth finish and exceptional gloss

Reliable for mid-wash refreshes or maintenance

NanoWax

Ewocar NanoWax is a highly concentrated synthetic wax designed to deliver fast, effortless gloss and protection right at the final rinse stage. No more tedious application, buffing, or cleanup — simply **dilute, spray, rinse, and you're done**. Ideal for professionals seeking efficiency and for everyday drivers wanting a clean, glossy vehicle without extra effort. **QUICK & EASY FINAL-RINSE APPLICATION.** Dilute, spray, rinse — that's it. NanoWax integrates seamlessly into your wash routine for instant protection. **SMOOTH, HYDROPHOBIC, LONG-LASTING LAYER.** Creates a slick, water-repellent coating that lasts up to five washes, improving gloss and keeping the car cleaner for longer. **ADVANCED POLYMER PROTECTION.** Shields paint from UV rays, dirt, and weather while staying streak-free and residue-free on all exterior surfaces.

FEATURES:

Highly concentrated synthetic wax

Applied during the **final water rinse**

Enhances gloss & water beading

No streaks, smears, or sticky residues

Dilutable up to **1:100**

Dressings

TT-Seal

High-quality exterior dressing designed specifically for restoring, enhancing, and protecting all exterior plastic and rubber components — especially **tires, unpainted plastic trims, rubber seals, mudguards, and exterior moldings**. Its advanced formula revitalizes faded surfaces, bringing back their rich, deep original color while leaving behind a **clean, dry, non-greasy finish**. **RESTORES DEEP & RICH COLOR.** Brings dull, faded plastics and rubber back to life, reviving the factory appearance. **CLEAN, DRY, NON-STICKY FINISH.** Leaves surfaces enhanced — not greasy — preventing dust attraction and eliminating sling on tires. **LONG-LASTING UV & WEATHER PROTECTION.** Forms a durable protective layer that shields surfaces from sun damage, oxidation, and environmental wear.
FEATURES:
Sealant for **exterior plastics** and **tires**

Restores deep color and clarity to faded surfaces

Leaves a **dry, non-greasy, non-sticky** finish

Provides **long-lasting UV protection**

Ideal for all unpainted plastics and rubber trims

NewGum

Ewocar NewGum is a highly concentrated restoration gel engineered to rejuvenate **tires, rubber components,** and **unpainted plastic trims**. Its advanced formula gently nourishes aged, faded, or weathered surfaces, restoring them to a **rich, clean, factory-fresh matte appearance** — without artificial shine, greasiness, or sticky residue. **NATURAL MATTE FINISH — NO FAKE SHINE.** Restores rubber and plastics to a realistic factory appearance, enhancing depth and richness without gloss. **CONCENTRATED, DILUTABLE GEL FORMULA.** Use neat for heavy restoration or dilute up to 1:3 for maintenance—extremely economical and versatile. **COMPLETELY ODORLESS.** Fragrance-free formulation makes application more pleasant, especially in enclosed detailing environments.
FEATURES:
Thick, concentrated **gel restorer**

Rejuvenates tires, rubber components, and unpainted plastic trims

Suitable for impregnating rubber door seals

Excellent for professional detailing or home use

Dilution up to **1:3 (100 ml gel + 300 ml water)**

Interior cleaners

AllClean

Highly concentrated **multi-purpose interior cleaner** engineered for fast, safe, and effective removal of dirt, stains, and odors from all types of interior surfaces. Whether you're dealing with grime on plastic trims, residue on leather, or deep-set contamination inside fabric and carpet fibers, AllClean delivers exceptional cleaning performance while remaining gentle on materials. **LOW-FOAMING FORMULA.** Unlike many APCs that produce excessive foam, AllClean is formulated to stay **low foaming**. **VERSATILE CLEANING.** Ewocar AllClean is designed to clean nearly every surface inside the vehicle. **DOESN'T JUST CLEAN.** It helps **remove unpleasant odors** trapped in fabrics and carpets by breaking down organic contaminants.

FEATURES:

Dilution (for concentrate versions) **1:10 – 1:25** depending on contamination level

Safe for **fabric, textile, leather,** and **plastics**

Perfect for **car upholstery** & **carpet cleaning**

Low-foaming formula ideal for wet vacuum extractors

Leaves a clean, smooth, refreshed finish

LeatherClean

Premium foaming cleaner developed for deep, safe, and highly effective cleaning of all leather and plastic surfaces inside your vehicle. Formulated without harsh chemicals or solvents, LeatherClean removes dirt, body oils, grease, and residues of older dressings while preserving the natural look and feel of the material. **DEEP CLEANING.** Designed to clean thoroughly **without damaging materials** or altering their texture. **BALANCED FORMULA.** Foam structure lifts contaminants gently from pores and textured surfaces, ensuring an even and controlled cleaning process. **TRUE-TO-ORIGINAL.** Unlike many leather cleaners that leave shine, residue, or an oily layer Ewocar LeatherClean reveals the material's authentic appearance.

FEATURES:

Safe, solvent-free formulation — gentle on even the most delicate materials

Suitable for all types of leather, including perforated and eco-leather

Leaves a **perfectly matte, dry-to-touch** finish

Ideal for regular maintenance or deep interior cleaning

Delivers studio-grade results with zero risk to sensitive surfaces

LeatherLotion

Luxurious, high-quality **leather conditioner** designed to nourish, protect, and revive both natural and synthetic leather surfaces inside your vehicle. Its premium formula restores lost softness, enhances flexibility, and refreshes faded color bringing leather back to life while preserving its original texture. **DEEP NOURISHMENT & LONG-LASTING PROTECTION.** It locks in optimal hydration, ensuring the leather stays soft, flexible, and comfortable for years to come. **PERFECT FOR ALL LEATHER TYPES.** The lightweight formula absorbs quickly without clogging pores or leaving residue, making it ideal for modern automotive interiors. **SATIN FINISH.** Instead of leaving a shiny or greasy layer, LeatherLotion restores the leather's **authentic satin sheen**, giving the cabin a factory-fresh, premium appearance.

FEATURES:

Premium **leather conditioner** for natural & synthetic leather

Revives color and restores softness

Light, luxurious fragrance enhances interior feel

Fast absorption, non-greasy formula

Ideal for regular maintenance or professional detailing

CleanGlass

Ewocar CleanGlass is a premium glass cleaner engineered to deliver a **crystal-clear, streak-free finish** every time. Say goodbye to foggy windshields, smeary side windows, and stubborn fingerprints — CleanGlass cuts through everyday contamination effortlessly, leaving glass surfaces bright, clear, and safe for driving. **CRYSTAL-CLEAR, STREAK-FREE FINISH.** Cleans glass, mirrors, and screens without smearing — leaving a perfectly bright, transparent result. **SAFE ON DELICATE SURFACES.** Formulated for glass, vinyl, plastics, leather, Alcantara, touchscreens, and sunroofs without risk of damage. **FAST, SIMPLE SPRAY-AND-WIPE APPLICATION.** Quick-drying formula that works instantly, with no residue and no need for repeated passes.

FEATURES:

Glass cleaner for a **streak-free, crystal-clear** finish

Removes dirt, fingerprints, haze, and greasy films

Safe on **glass, mirrors, displays, sunroofs, plastics, vinyl, leather, Alcantara**

Easy **spray-on, wipe-off** application

Works safely on vehicles with **liquid wiper** hydrophobic treatments

Screen Washes

Ewocar screen washes are designed to keep your windshield clean and your visibility clear in everyday driving conditions. They effectively remove dirt, insects, and road film while providing a fresh finish. Easy to use and suitable for regular maintenance, Ewocar screen washes help ensure safe and comfortable driving.

Winter ScreenWashes

Ewocar Winter ScreenWash is a high-performance winter windscreen washer fluid formulated to deliver spotless clarity, strong cleaning power, and dependable frost protection in harsh winter conditions. Designed to remove **salt, dirt, slush, and stubborn winter road grime**, it ensures a perfectly clean windscreen and safe driving visibility even in snow, ice, or freezing temperatures. **READY-TO-USE WINTER FORMULA.** No mixing required — performs instantly and safely down to **–15 °C** for reliable winter visibility. **FAST, EFFECTIVE CLEANING POWER.** Dissolves salt, dirt, and winter grime quickly, leaving the windscreen streak-free and crystal clear. **PLEASANT PERFUME SCENT** or **FRESH ORANGE FRAGRANCE.** A refined fragrance or pleasant fruity scent enhances the cleaning experience, making winter driving more enjoyable.

FEATURES:

Premium **winter windscreen washer fluid**

Powerful cleaning action against winter road grime

Removes salt, dirt, and stubborn deposits

Direct-pour formula for convenience

Pleasant, long-lasting **perfume scent** or **fresh orange** fragrance

Accessories

Make car care easier and more effective with Ewocar accessories, designed to help you achieve clean, safe, and consistent results. Our accessories are made to work perfectly with Ewocar products, supporting smooth application and protecting your vehicle's surfaces during use. With a focus on quality, durability, and ease of use, Ewocar accessories are suitable for both enthusiasts and everyday drivers who want professional-level results.

Microfiber Cloths

Ultrasoft Microfiber Cloth Pack

The **short-pile side** is ideal for buffing ceramic coatings, sealants, hybrid waxes, and for removing polishing compounds with precision. The **long-pile side** delivers the perfect final finish — lifting light dust, leveling residues, and bringing out a high-gloss shine on paint, glass, and interior surfaces. **DUAL-SIDED DESIGN FOR MAXIMUM VERSATILITY.** Short pile for product removal, long pile for final polishing — two tools in one cloth. **ULTRA-SOFT & LINT-FREE.** Premium microfiber blend ensures a streak-free, scratch-free finish on even the most sensitive surfaces. **SMART COLOR CODING.** Dark blue + orange towels help avoid cross-contamination between coatings, polishing, glass cleaning and interiors.

FEATURES:

Set of ultra-soft **microfiber cloths**

Dual-sided: short pile + long pile

Size: **40 × 40 cm**

Weight: **400 g/m²**

Laser-cut edges for scratch-free performance

Basic320 Microfiber Cloth Set

The Ewocar Microfiber Basic320 Cloth Set offers exceptional value with a pack of **20 high-quality microfiber cloths** designed for all-around vehicle care. With a standard-weight **320 g/m²** and short, tightly woven fibers, these towels provide reliable cleaning performance inside and outside the vehicle. **SHORT-PILE VERSATILITY.** The compact fiber structure excels at removing coatings, polishes, and residues while remaining safe for interiors and exteriors. **HIGH-VALUE BULK PACK.** A cost-efficient 20-piece set ideal for professionals who require large quantities of dependable microfiber cloths. **ULTRASONICALLY CUT EDGES.** Seamless, scratch-free edges that protect sensitive surfaces and improve towel longevity.

FEATURES:

Versatile **microfiber cloths** for interior & exterior use

Short-pile design for effective product removal

Size: **40 × 40 cm**

Weight: **320 g/m²**

Laser-cut edges for scratch-free performance

Basic320 Microfiber Cloth Set (3pcs)

The Ewocar Microfiber Basic320 Cloth Set (3 pcs) is a versatile and economical pack of **320 g/m² microfiber cloths**, designed for both interior and exterior vehicle care. This set includes **three color-coded towels — Blue, Red, and Green — perfectly matched to Ewocar's polishing system** so detailers always know which cloth to use with which compound. **COLOR-CODED FOR POLISHING STAGES.** Blue for Heavy Cut, Red for One Cut, Green for Fine Cut — making paint correction more organized and preventing cross-contamination. **SHORT-PILE MULTIPURPOSE CONSTRUCTION.** Ideal for removing compounds, buffing coatings, interior cleaning, and general detailing tasks. **ULTRASONICALLY CUT EDGES.** Seamless, scratch-free edges that protect sensitive surfaces and improve towel longevity.

FEATURES:

Versatile **microfiber cloths** for interior & exterior use

Three colors: Blue (Heavy Cut), Red (One Cut), Green (Fine Cut)

Size: **40 × 40 cm**

Weight: **320 g/m²**

Laser-cut edges for scratch-free performance

Waffle Glass Towel

Premium microfiber towel engineered to deliver a perfectly clear, streak-free finish on all glass and reflective surfaces. Designed with a unique **waffle weave pattern**, this towel offers superior absorbency, effortlessly lifting moisture, fingerprints, dust, and grime while minimizing the need for multiple passes. **STREAK-FREE CLARITY.** The waffle weave removes moisture and residues quickly, leaving perfectly clear, streak-free glass every time. **SUPERIOR ABSORBENCY.** The textured microfiber structure absorbs moisture more effectively than flat-weave towels — ideal for fast drying and spot-free results. **DURABLE & REUSABLE.** Machine-washable, long-lasting construction provides excellent value and reduces waste — an eco-friendly cleaning solution.

FEATURES:

Premium **waffle weave microfiber** for streak-free glass cleaning

Ultra-soft, non-abrasive fibers safe for all surfaces

Perfect for automotive glass, mirrors, windows, screens, and more

Leaves zero lint, streaks, or scratches

Durable, reusable & eco-friendly

Drying Towels

Ewocar Drying Towels are designed for fast, safe, and efficient vehicle drying. Made with high-quality twisted loop microfiber, these towels offer excellent water absorption while remaining gentle on paintwork. Available in GSM ratings from 600 to 1600, they suit everything from quick maintenance dries to maximum water removal after a full wash. Multiple size and color options allow you to choose the perfect towel for your workflow, whether drying smaller panels or entire vehicles with ease.

Special Drying Towel 1800GSM

The Ewocar Special Twisted Loop Drying Towel is the ultimate tool for fast, effortless, and scratch-free vehicle drying. Finished in the iconic **Dark Grey**, this premium towel is engineered for enthusiasts and professionals who demand top-tier performance from their drying gear. With an ultra-thick **1800 GSM** microfiber construction and a huge **50 × 80 cm** size, it absorbs massive amounts of water in a single pass. **ULTRA-ABSORBENT 1800 GSM.** Absorbs huge amounts of water effortlessly and dries large panels in a single pull. **SAFE, EDGELESS & LINT-FREE.** Soft microfiber with no sharp edges ensures scratch-free drying on paint, glass, and plastics. **FAST, STREAK-FREE DRYING.** Leaves no haze, streaks, or lint behind — perfect for coated vehicles and high-gloss finishes.

FEATURES:

Premium **1800 GSM** twisted loop microfiber

Exceptionally absorbent; ideal for fast drying

Safe for paint, glass, plastic, and coated surfaces

Ultra-soft, plush, and edgeless design

Size: **50 × 80 cm**

Special Drying Towel 1600GSM

The Ewocar Special Twisted Loop Drying Towel is the ultimate tool for fast, effortless, and scratch-free vehicle drying. Finished in the iconic **Dark Grey**, this premium towel is engineered for enthusiasts and professionals who demand top-tier performance from their drying gear. With an ultra-thick **1600 GSM** microfiber construction and a huge **100 × 70 cm** size, it absorbs massive amounts of water in a single pass. **ULTRA-ABSORBENT 1600 GSM.** Absorbs huge amounts of water effortlessly and dries large panels in a single pull. **SAFE, EDGELESS & LINT-FREE.** Soft microfiber with no sharp edges ensures scratch-free drying on paint, glass, and plastics. **FAST, STREAK-FREE DRYING.** Leaves no haze, streaks, or lint behind — perfect for coated vehicles and high-gloss finishes.

FEATURES:

Premium **1600 GSM** twisted loop microfiber

Exceptionally absorbent; ideal for fast drying

Safe for paint, glass, plastic, and coated surfaces

Ultra-soft, plush, and edgeless design

Size: **100 × 70 cm**

Special Drying Towel 1200GSM

The Ewocar Special Twisted Loop Drying Towel is the ultimate tool for fast, effortless, and scratch-free vehicle drying. Finished in the iconic colors **Dark Grey**, **Dark Blue** and **Orange** this premium towel is engineered for enthusiasts and professionals who demand top-tier performance from their drying gear. With an ultra-thick **1200 GSM** microfiber construction and a two different **40 × 60 cm** | **60 × 90 cm** sizes, it absorbs massive amounts of water in a single pass. **ULTRA-ABSORBENT 1200 GSM.** Absorbs huge amounts of water effortlessly and dries large panels in a single pull. **SAFE, EDGELESS & LINT-FREE.** Soft microfiber with no sharp edges ensures scratch-free drying on paint, glass, and plastics. **FAST, STREAK-FREE DRYING.** Leaves no haze, streaks, or lint behind — perfect for coated vehicles and high-gloss finishes.

FEATURES:

Premium **1200 GSM** twisted loop microfiber

Exceptionally absorbent; ideal for fast drying

Safe for paint, glass, plastic, and coated surfaces

Ultra-soft, plush, and edgeless design

Size: **40 × 60 cm** | **60 × 90 cm**

Twisted Loop Towel 600GSM

Premium-quality, highly absorbent drying towel designed to make vehicle drying faster, easier, and completely streak-free. With its densely woven twisted loop microfiber construction, this towel pulls moisture from the surface effortlessly — simply lay it across the panel and glide it gently to achieve a spotless, water-free finish in seconds. **HIGHLY ABSORBENT.** Effortlessly removes water while reducing friction — perfect for streak-free drying. **EASY TO HANDLE.** Lightweight and user-friendly, ideal for everyday drying or quick maintenance washes. **DURABLE, STYLISH & VALUE-PACKED.** Dark blue towel with orange edging offers long-lasting performance at an excellent price.

FEATURES:

Medium-sized **twisted loop** drying towel

Quick-drying microfiber

Highly absorbent & streak-free

Weight: **600 g/m²**

Size: **50 × 70 cm**

Wash & Prep

Wash Mitt

The Ewocar Wash Mitt is a premium-quality, ultra-soft washing glove designed to deliver a safe, scratch-free wash at the highest professional standard. Weighing only **95 grams**, this exceptionally lightweight mitt glides smoothly over paint, lifting dirt gently without inducing swirls or wash marring. Its generous **28 × 20 cm** size provides excellent coverage, making it quick and easy to wash large panels as well as tight, detailed areas. **EXTRA-SOFT, PAINT-SAFE FIBERS.** Removes dirt gently while protecting the paint surface from swirls and scratches. **HIGH ABSORBENCY.** Holds plenty of wash solution, ensuring smooth gliding and safer contact washing. **LIGHTWEIGHT & COMFORTABLE DESIGN.** At just 95 grams, the mitt offers professional performance without the bulk — easy to maneuver, easy to wash, easy to love.

FEATURES:

Premium Ewocar microfiber Wash Mitt

Soft, paint-safe microfiber material

High absorption capacity

Soft, paint-safe microfiber surface

Extremely lightweight (**95 g**)

Microfiber Wheel Brush

The Ewocar Microfiber Wheel Brush is a premium, ultra-soft wheel cleaning tool designed to deliver safe, effective, and effortless cleaning of all wheel types. Measuring **45 cm** in length, it easily reaches deep into most alloy wheels, including multi-spoke, concave, and performance-style rims. Made from **extra-fine, high-quality microfiber**, the brush lifts dirt, brake dust, and road grime without scratching or damaging delicate finishes. **EXTRA-FINE MICROFIBER SURFACE.** Soft, scratch-safe fibers remove dirt and brake dust effectively while protecting sensitive wheel finishes. **LIGHTLY FLEXIBLE CORE.** Bends just enough to reach behind spokes and contours, ensuring thorough coverage throughout the wheel. **RUBBERIZED NON-SLIP HANDLE.** Provides comfort and control during use, even when wet, improving accuracy and reducing fatigue.

FEATURES:

Large microfiber wheel cleaning brush

Rubberized, non-slip handle

Extra-fine microfiber surface safe for all wheels

Lightly flexible construction

Total length: **45 cm**

Clay Set

The Ewocar Clay Set includes **4 x 50 g bars** of high-quality, medium-hardness detailing clay designed for effective and safe mechanical decontamination. These premium clay bars are soft, smooth, and highly malleable, making them easy to shape and ideal for removing bonded contaminants that regular washing cannot eliminate. **MEDIUM-GRADE, HIGH-QUALITY CLAY BARS.** Strong enough to remove tough contaminants while remaining smooth and safe on paint when properly lubricated. **VERSATILE USE ACROSS VEHICLE SURFACES.** Ideal for decontaminating paintwork, glass, and wheels — essential for prepping before polishing or coating. **RESEALABLE STORAGE CONTAINER.** Keeps clay clean, protected, and fresh between uses, extending its lifespan and usability.

FEATURES:

Set of **4 clay bars**

Medium hardness for balanced cleaning power

Suitable for paint, wheels, and glass

Essential for mechanical paint decontamination

Each bar weighs **50 g**

Clay Towel

The Ewocar Clay Towel is a modern, polymer-infused microfiber towel designed to replace traditional detailing clay during mechanical paint decontamination. Its advanced polymer layer quickly and safely removes bonded contaminants such as **tar, resin, asphalt, insect residues, tree sap, industrial fallout, overspray,** and other embedded particles that washing alone cannot eliminate. **POLYMER LAYER FOR DEEP DECONTAMINATION.** Removes tar, resin, asphalt, fallout, and insect residues with ease — far faster than traditional clay. **REUSABLE & ECONOMICAL.** If dropped, simply rinse and continue using. Long-lasting and cost-efficient compared to disposable clay bars. **FAST, EFFICIENT WORKFLOW.** Covers more surface area in less time, speeding up the entire decontamination process for both pros and enthusiasts.

FEATURES:

Paint **decontamination towel** with polymerized surface

Replaces traditional clay bars

Suitable for mechanical paint decontamination

Fast, efficient, and reusable

Size: **40 × 40 cm**

3in1 Pump Sprayer & Foamer

Professional-grade sprayer designed for detailers who demand precision, efficiency, and versatility. Featuring interchangeable **Foam**, **Spray**, and **Mist nozzles**, it delivers the perfect application for every detailing task: from deep exterior cleaning to gentle interior care. Built with durable materials and an ergonomic design, this sprayer ensures consistent performance and effortless control, even during intensive use.
BUILT FOR PERFORMANCE. Max Capacity: **2 Liters** | Max Pressure: **3 Bar**.
INTERCHANGEABLE NOZZLE SYSTEM. Foam Nozzle for **Deep Cleaning Tasks**, Spray Nozzle for **Power & Precision**, Mist Nozzle for **Gentle & Controlled Applications**.
PRECISION, POWER & VERSATILITY IN ONE TOOL. Designed for detailers who demand more from their equipment, the Sprayer delivers unmatched control, efficiency, and adaptability across every detailing task.

FEATURES:

Durable Construction built to withstand intensive & daily use

Ergonomic Design comfortable grip and effortless handling

Consistent Output reliable performance across all applications – one tool for **multiple detailing tasks**

Foam Gun

Upgrade your wash routine with the Ewocar Foam Gun designed to deliver rich foam, precise control, and reliable performance with every use. Built for both enthusiasts and professionals, it transforms any pressure washer into a powerful foaming system. **ADVANCED FOAM CONTROL SYSTEM.** Gives you full control over coverage and foam distribution depending on the task. **SOAP CONTROL KNOB.** From light pre-wash to thick, clinging foam adjust it to your needs. **PRECISION ENGINEERING.** Designed for optimal balance between airflow, pressure, and chemical mixing ensuring consistent foam output with every use.

FEATURES:

High-Quality Brass Core: durable, chemical-resistant and long-lasting

Quick Connector: fast and secure attachment to pressure washers

Large Capacity Bottle (800ml / 28.2 oz): fewer refills, more efficiency

Upgraded Spray Nozzle Design: improved foam generation and control

Wide Neck Bottle & Big Cap: easy filling and cleaning

Applicators

Ewocar applicators are designed to make product application smooth, controlled, and efficient. Whether you're applying ceramic coatings, leather conditioners, or other car care products, our applicators help ensure even coverage while minimizing product waste. Made for comfortable handling and safe use on vehicle surfaces, Ewocar applicators are suitable for both professionals and car care enthusiasts.

Microfiber Coating Applicator 3in1

The Ewocar Coating Finger Applicator is a practical, easy-to-use microfiber applicator designed specifically for applying ceramic coatings such as Ewocar **Hydro36**, **PRO60**, **Glass Pro**, and other coatings. Created for comfort, control, and safety, this applicator fits over the fingers like a glove, allowing you to apply coating smoothly and precisely — especially around curves, edges, complex body shapes, and tight areas where traditional applicator blocks struggle. **ENHANCED PRECISION & REACH.** Fits over your fingers for better control — perfect for edges, mirrors, pillars, bumpers, and tight areas where blocks feel clumsy. **BUILT-IN ANTI-SEEPAGE LAYER.** Paralon foam interior prevents the coating from soaking through, protecting your skin and preventing product waste. **FASTER, MORE EVEN APPLICATION.** Applies coatings more efficiently than traditional applicator blocks, reducing missed spots and improving overall coating uniformity.

FEATURES:

Microfiber finger applicator for **ceramic coating application**

Prevents coating seepage with internal insulating layer

Faster application on paint and glass

3 pcs per pack

Size: **14 × 11 cm**

Application Sponge

The Ewocar Application Sponge is a highly versatile microfiber applicator designed for a wide range of detailing tasks, making it an essential tool for both professionals and car care enthusiasts. With its soft, high-quality microfiber surface and ergonomic **three-finger pocket**, this applicator offers exceptional control and comfort during use. **MULTI-PURPOSE MICROFIBER APPLICATOR.** Perfect for waxes, dressings, impregnation, and interior cleaning — one tool for countless tasks. **ERGONOMIC THREE-FINGER POCKET.** Improves grip and control, ensuring smooth, even product application without slipping. **WASHABLE & LONG-LASTING.** Machine washable and built for repeated use, making it a durable and economical detailing accessory.

FEATURES:

Versatile **microfiber application sponge**

Ideal for waxing, impregnation, and interior care

Ergonomic **three-finger pocket** design

Machine washable & reusable

Dimensions: **13 cm x 2 cm**

Scrubs

Ewocar scrubs are designed to help remove stubborn dirt and residues while remaining safe on vehicle surfaces. Ideal for deeper cleaning tasks, they assist in lifting contaminants that regular washing may not remove. Available as scrub sponges and a scrub mitt, Ewocar scrubs offer controlled cleaning and comfortable use, making them suitable for both exterior and interior detailing when extra cleaning power is needed.

Scrub Mitt

The Ewocar Scrub Mitt Cleaning Glove transforms interior detailing by giving you what feels like a **"big hand" specifically engineered for cleaning**. Designed for both professionals and enthusiasts, this mitt offers exceptional control, force distribution, and coverage — making it far more efficient and comfortable than traditional detailing brushes. **ENHANCED CONTROL & CLEANING POWER.** Feels like an extension of your hand — offering better pressure, reach, and efficiency than standard detail brushes. **DUAL-SURFACE MICROFIBER DESIGN.** Soft side for gentle cleaning, coarse side for tackling stubborn grime on harder plastics. **PERFECT MATCH.** Pairs flawlessly with Ewocar **AllClean** or Ewocar **LeatherClean** and works beautifully.

FEATURES:

Ewocar Scrub Mitt glove for **powerful yet gentle interior cleaning**

Ideal for **door panels, leather/vinyl seats, dashboards, and door sills**

Superior control, force, and surface coverage compared to brushes

Compatible with Ewocar **AllClean** and other interior cleaning products

Machine washable & reusable

Scrub Sponges

The Ewocar Scrub Sponge Cleaning Pads are versatile, dual-sided interior cleaning tools designed to make upholstery, leather, and trim restoration more effective and more efficient. Each pack includes **three premium sponges**, with every sponge combining two different working surfaces for maximum cleaning performance. **DUAL-SURFACE DESIGN.** Scrub fibers for deep cleaning + microfiber side for absorption and finishing — two tools in one compact pad. **IDEAL FOR LEATHER & UPHOLSTERY CARE.** Perfect for cleaning, conditioning, and protecting interior materials without causing wear or scratches. **MACHINE WASHABLE & REUSABLE.** Durable construction allows repeated use, offering great value and reducing waste.

FEATURES:

Dual-sided cleaning and application sponges

Ideal for leather cleaning, conditioning & protection

Suitable for upholstery, plastics, and interior trims

3 pcs per pack

Size: **13 × 8 cm**

Paint Protection Film

Ewocar PPF System is designed to deliver premium paint protection with a straightforward, reliable approach. By offering purpose-built films for both high-gloss and matte finishes, the system makes it easy to choose the right protection without compromising appearance or performance. Engineered for professionals and demanding enthusiasts alike, Ewocar PPF provides exceptional resistance against stone chips, scratches, UV exposure, stains, and everyday wear. With advanced self-healing technology, hydrophobic properties, and long-lasting durability, the Ewocar PPF System helps preserve your vehicle's finish while maintaining its flawless appearance for years to come

GUARD
Paint Protection Film

Ewocar GUARD is a **premium high-performance paint protection film (PPF)** designed to deliver invisible, long-lasting defense for your vehicle's paintwork. Engineered with top-quality materials — including TPU substrate and pressure-sensitive adhesive — it combines exceptional durability, optical clarity, and practical everyday benefits. Backed by a **10-year warranty**, GUARD protects against road hazards while preserving and even enhancing your car's showroom appearance. **SELF-HEALING.** Minor scratches vanish with heat from the sun, warm water or even engine warmth. Your car stays flawless longer. **SUPER STRETCH.** 400% elongation means it hugs complex curves, deep contours and edges perfectly without lifting or stress marks. **ANTI-YELLOWING.** Crystal-clear clarity that resists UV degradation and stays ice-white for the full warranty period. **BUILT-IN HYDROPHOBICS.** Water beads and rolls off effortlessly, reducing dirt buildup, water spots and making maintenance way easier.

FULL TECHNICAL SPECS:

MatteGuard
Paint Protection Film

Ewocar MatteGuard is a premium high-performance **matte paint protection film (PPF)** designed to provide long-lasting protection while transforming glossy paint into a sophisticated satin-matte finish or preserving the original appearance of factory matte paint. Engineered with premium TPU substrate and a high-quality pressure-sensitive adhesive, it delivers outstanding durability, self-healing properties, and superior resistance against stone chips, scratches, road debris, UV exposure, and environmental contaminants. Backed by a **10-year warranty**, MatteGuard offers exceptional protection without compromising the vehicle's unique matte aesthetics, keeping the finish looking clean, uniform, and flawless for years to come. **SELF-HEALING.** Minor scratches disappear with heat from the sun, warm water, or engine warmth, helping maintain a smooth, uniform matte finish for years. **SUPER STRETCH. Up to 400% elongation** allows the film to conform effortlessly to complex curves, deep contours, and edges without lifting, distortion or stress marks. **ANTI-YELLOWING.** Advanced UV-resistant technology keeps the film stable over time, preserving its consistent satin-matte appearance throughout the 10-year warranty period. **BUILT-IN HYDROPHOBICS.** The integrated hydrophobic top coat repels water, dirt, and contaminants, making the matte surface easier to clean while minimizing water spotting and maintenance.

Merchandise

Ewocar merchandise is designed for those who want to represent the brand both in and out of the garage. Combining comfort, quality, and a clean design, our merchandise reflects Ewocar's passion for car care and detailing culture. Ideal for everyday wear, events, and professional environments, Ewocar merchandise lets you show your connection to quality detailing products and the Ewocar community.

Utility Work Pants

The Ewocar Utility Work Pants are designed for detailers and automotive professionals who need comfort, freedom of movement, and practical storage throughout the working day. With a clean all-black design, functional cargo pockets, and subtle Ewocar branding, they combine professional workwear functionality with a modern, understated look. Whether you're polishing, washing, preparing vehicles, or moving around the workshop, these pants are built to keep everyday essentials close at hand while maintaining a comfortable fit. **BUILT FOR DETAILING WORK.** Designed for active days in the studio, providing a comfortable and practical fit without unnecessary bulk. **FUNCTIONAL UTILITY STORAGE.** Multiple pockets, including a dedicated cargo pocket, provide convenient storage for small tools, accessories, and everyday essentials. **COMFORTABLE ADJUSTABLE FIT.** An elasticated waistband with drawstring adjustment provides a secure, flexible fit throughout the working day. **CLEAN EWOCAR STYLING.** An all-black finish with subtle Ewocar branding creates a professional look that pairs naturally with the rest of the Ewocar workwear collection.

FEATURES:

- Durable black work pants for professional and everyday use
- Elasticated waistband with adjustable drawstring
- Practical side and cargo pocket storage
- Comfortable design for active detailing work
- Straight-leg construction for unrestricted movement
- Subtle Ewocar branding on the cargo pocket
- Ideal for detailing studios, workshops, automotive events, and everyday wear

Essential Cap

The Ewocar Essential Cap brings a cleaner, sharper look to an everyday detailing essential. Featuring a structured all-black design with bold white embroidered Ewocar branding, it's made for detailers, automotive enthusiasts, events, and everyday wear. Built for comfort and versatility, the Essential Cap keeps the sun out of your eyes while maintaining a professional look in the studio, at a show, or on the road. **CLEAN, PROFESSIONAL DESIGN.** A timeless black finish with contrasting white Ewocar embroidery for a sharp, recognizable look. **MADE FOR DETAILERS.** The curved peak helps shield your eyes from direct light while working outdoors, washing, polishing, or inspecting a vehicle. **COMFORTABLE EVERYDAY FIT.** Lightweight and breathable construction makes it comfortable enough for long detailing sessions and daily wear. **SIGNATURE EWOCAR BRANDING.** Finished with a bold embroidered Ewocar logo for a premium, durable look that represents the brand wherever you go.

FEATURES:

- Premium Ewocar branded cap with embroidered logo
- Classic all-black design with white detailing
- Structured fit with curved peak
- Comfortable and breathable construction
- Adjustable closure for a versatile fit
- Ideal for detailing, automotive events and everyday wear

Performance Polo

The Ewocar Performance Polo combines a clean, professional appearance with everyday comfort, making it an ideal choice for detailers, automotive professionals, and Ewocar enthusiasts. Featuring a crisp light-grey finish with contrasting black Ewocar branding, it delivers a refined look suitable for the detailing studio, automotive events, customer meetings, or casual wear. Its classic polo construction provides a smart appearance while keeping you comfortable and unrestricted throughout the working day. **PROFESSIONAL STYLE & COMFORT.** A classic polo silhouette provides a polished appearance while remaining comfortable for active, all-day wear. **CLEAN LIGHT-GREY DESIGN.** The versatile light-grey finish pairs easily with workwear and casual outfits while maintaining a fresh, professional look. **SIGNATURE EWOCAR BRANDING.** Contrasting black Ewocar branding on the chest creates a distinctive finishing touch without overpowering the clean design. **MADE FOR WORK & BEYOND.** Equally at home in the detailing studio, at automotive events, meeting customers, or as part of your everyday wardrobe.

FEATURES:

- Premium light-grey Ewocar polo shirt
- Classic collar with three-button placket
- Comfortable construction for all-day wear
- Short sleeves for unrestricted movement
- Contrasting black Ewocar chest branding
- Clean, professional appearance
- Ideal for detailing, workshops, automotive events, and everyday wear

Puffer Vest

The Ewocar Puffer Vest is a lightweight, insulated layer designed for detailers, automotive professionals, and everyday wear. Its quilted construction provides comfortable warmth without the bulk of a full jacket, while the sleeveless design gives you unrestricted movement when polishing, washing, or working around a vehicle. Finished in signature black with contrasting white Ewocar branding, it delivers a clean, professional look that works just as well in the detailing studio as it does at events or on the road. **LIGHTWEIGHT INSULATED WARMTH.** Quilted construction helps keep your core warm while remaining lightweight and comfortable throughout the day. **FREEDOM TO MOVE.** The sleeveless design keeps your arms unrestricted, making it ideal for polishing, washing, interior detailing, and other hands-on work. **BUILT FOR EVERYDAY PRACTICALITY.** Full-zip construction and convenient zippered side pockets make it a functional layer for work, travel, and daily wear. **SIGNATURE EWOCAR BRANDING.** Bold white Ewocar branding contrasts against the all-black finish for a clean and unmistakably professional look.

FEATURES:

- Lightweight quilted and insulated construction
- Sleeveless design for unrestricted movement
- Full-length front zipper for easy layering
- Practical zippered side pockets
- High collar for additional coverage and comfort
- Signature Ewocar branding
- Ideal for detailing studios, automotive events, travel, and everyday wear
